

CYCLONE SHREDDER

Bridging the gap between batwing and flail mower

Cyclone Shredder

Bridging the gap between batwing and flail mower

The MAJOR Cyclone Shredder has been designed to do the work of a flail mower but requires a fraction of the power and fuel that a similar sized flail mower would consume.

These machines are ideal for every day grassland management and the shredding of corn, cotton, maize, milo stalks, potato vines, sugar-beet tops and other crops. The unique blade system delivers a fine mulch and even distribution of mulched material. This speeds up the decomposition process and puts nutrients and moisture back into the soil.

The MAJOR Cyclone Shredder is manufactured using Strenx™ 700 MC high-strength steel and hot-dip galvanized to EN ISO 1461:2009 to increase the lifespan of the machine.

YouTube Search *'Cyclone Cotton Stalk Shredder, Mississippi'* to see this machine in action!

Specifications	MJ30-420DW	MJ30-560	MJ30-630
Overall width	14' 6"	19'	21' 4½"
Cutting width	14'	18' 4"	20' 8"
Transport width	6' 7"	6' 7"	9' 1¼"
Power (HP)	90-150HP	100-150HP	140-190HP
PTO (rpm)	1000	1000	1000
Cutting height	2" to 6¾"	2" to 6¾"	2" to 6¾"
No. of Rotors	6	8	9
No. of Blades	24	32	36
Weight	3,000 lbs.	3,700 lbs.	4,130 lbs.
Blade speed	11,400 FPM	11,400 FPM	11,400 FPM

- ✓ Impressive 6 mph forward speeds
- ✓ No wind rowing
- ✓ Requires 50% less HP input than a flail mower
- ✓ Even distribution of cut material
- ✓ Multi-purpose; ideal for heavy scrub and stubble management

Features:

14', 18' 4" and 20' 8" models.

Can be front or rear mounted (to be specified when ordering).

Unique heavy duty blade system for maximum mulching and shredding.

Minimum 50% less power and fuel consumption required than a similar sized flail machine.

Impact shock reducing swinging hardened spring steel blades.

Low maintenance machine with less wearing parts than a flail mower.

Heavy duty rear roller.

The undersole discs are produced from Hardox® 450.

About Major

Major Equipment (Intl) Ltd is an award-winning manufacturer of innovatively designed agricultural machinery, professional mowers and construction equipment. More than 65% of our machinery produced is exported across the world under the brand name MAJOR.

MAJOR is a global brand renowned for strength, stamina and value.

MAJOR believes in giving farmers, owners, and businesses the best tools to be productive in their operations. Since its establishment in 1976, Major Equipment is focused on producing equipment designed to meet specific challenges arising from different agricultural and commercial environments.

Every MAJOR product stands for the quality, resilience, and pride that reflects its agricultural roots. The family-owned and operated business is based in Ballyhaunis, County Mayo in Ireland, a country renowned for engineering excellence around the world.
